## SOCIETY GAMES

<https://www.sicanucleaire.fr/fr/jeux/>

Find our new society game on our website !

Those games are playful and will allow you to test, progress and maintain your skills on the RCC-E and the standard NF ISO 19443.

- **"RCC-E The Game"** is accredited by AFCEN. It is developed by our engineers following the RCC-E 2019 code.
- **"19443 The Game"** has been developed by our engineers, through the standard NF ISO 19443 by AFNOR edition.

Form teams of 2 to 4 players by mixing your services: The best activities for team building moment.

*Extra : there are available on French and English version !*

Student

# PROFILE OF QUARTER

Since the beginning of September 2021, we are welcoming Antoine. Actually in ESIMED (Ecole Supérieur d'informatique de la MEDiterranée), he is also alternating with SICA Nucléaire. He has for project the development of a LMS platform for our company. Others internes applications development missions will be considered during these 3 next years.

Welcome Antoine !

## TECHNICALS POINTS :

### CERTIFICATION AUDIT ISO 9001

We had a following certification audit for the standard ISO 9001 version 2015 last October.

We passed it with success. The audit has enable to highlight 7 strong points for the standard ISO, here are some examples:

- The QSM (Quality Management System) culture is very present in the organization.
- The engagement of the organisme's direction during the implementation of the QSM through the direct taking charge of the day-to-day actions.
- The measures taken and implemented by the organization for the qualification and the maintenance of competence of its personnel are a remarkable strong point of its QMS.

### OUR AUDITORS ISO 19443

Since September 2021, 2 of our employees are part of the group of the AFNOR's auditors in the framework of the ISO 19443 certification.

Congratulations to them !

# NEWS

## WORLD NUCLEAR EXHIBITION

For the 4th consecutive year, we participate at the WNE 2021 in Paris Villepinte.

This exhibition is always a great source of sharing and meeting.

During this event, we were able to show you our new society games which have been really appreciate by all visitors.

Despite the current health situation, we were happy to be there.

**MANY THANKS TO OUR CUSTOMERS, PARTNERS AND VISITORS.  
WE LOOK FORWARD TO SEE YOU FOR THE 2023 EDITION!**

## TEAM BUILDING

Being productive at work is important it's why we need a good team cohesion. We cooked out Christmas dinner together.

Chiefs Maxime and Oliver from the *Atelier des Gourmand* à Meyreuil gave us some good advices!

Conviviality and good mood, such a precious moment!

## E - LEARNING

Request the best for the nuclear safety. This is SICA Nucléaire's device.

The quality of our services is the priority, it's why we decided to work with a new e-learning editing software since December 2021.

Our « Safety culture » module will be updating in 2022 and completed by a RCC-E 2012, 2019 and the standard ISO 19 443 discovery.

These e-learning will be more intuitive and the scenarios more realistic.

Stay tuned !

From now, you can access to our e-learning module through our website :

<https://www.sicanucleaire.fr/e-learning/>

And, you can also subscribe to our inter and intra company trainings right there :

[www.sicanucleaire.fr](http://www.sicanucleaire.fr)
